Maj. Gen'l Duk Points Up  
Critical Nature Of  
Raging Battle

SEOUL, June 26—(INS)—South Korea's fully mobilized army, promised immediate U. S. arms aid, unleashed hard counter-attacks today to halt a tank led invasion column of Soviet-trained North Korean troops driving toward the capital of Seoul.

A South Korean army communiqué reported the counter-attacks were launched four miles north of Uijongbu, 17 road miles northeast of Seoul, and that Communist North Korean troops in that sector were retreating northward.

The counter-attacks were supported by seven South Korean AT-6 fighter planes which were reported to have destroyed four Red tanks. The critical nature of the raging battle just north of Seoul was pointed up in a statement by Maj. Gen. Chai Byong Duk, South Korean army deputy chief of staff, who said:

"The defense of the Uijongbu area will decide the fate of South Korea."

North Korea's Communist army of 60,000 troops, equipped with 90 tanks and 195 planes, plunged the country into civil war Sunday with surprise attacks all along the 200-mile border at the 38th parallel which separates the northern and southern sectors of the country.

Of the 95,000 troops in South Korea's army, 50,000 were estimated already equipped with rifles and

Government Procurement  
Information Available

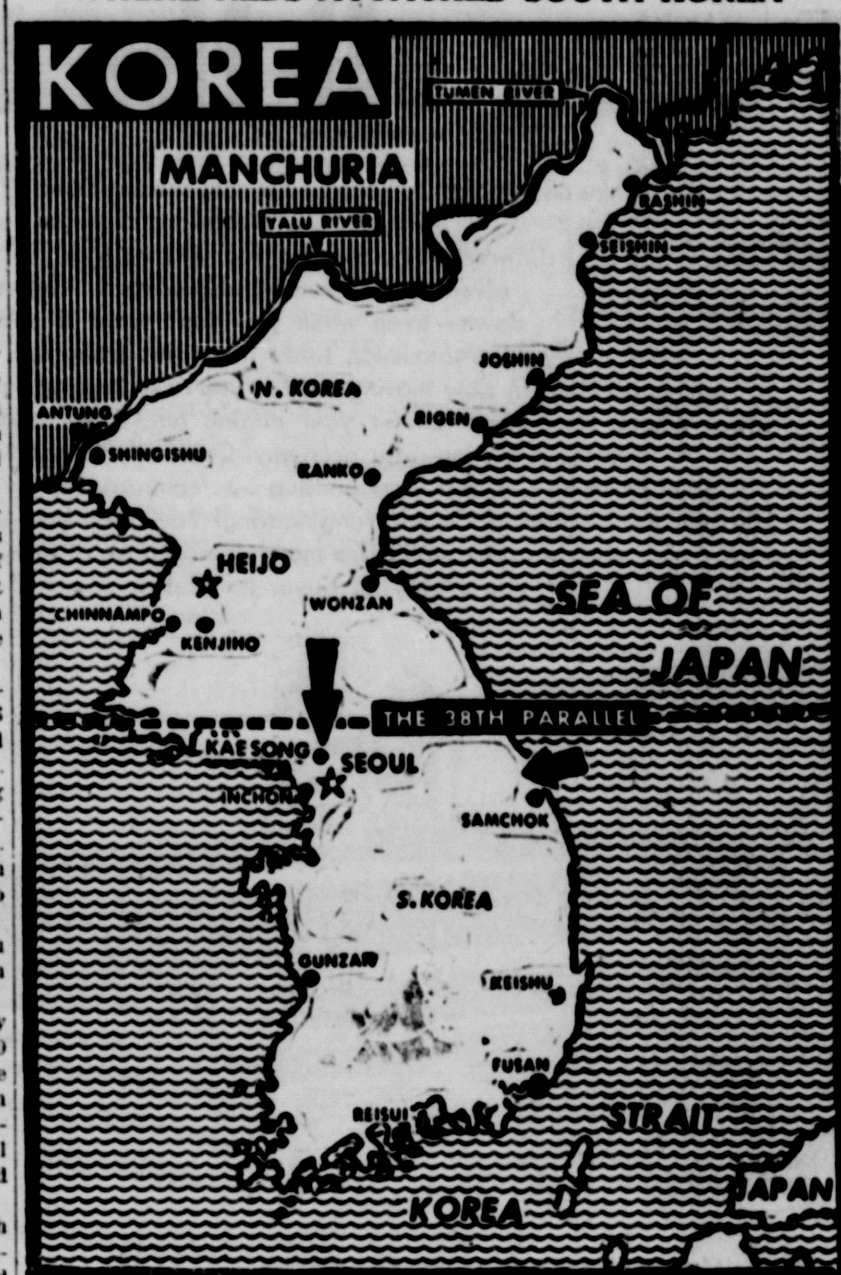

To give all businessmen in the area served by the Bristol Chamber of Commerce an opportunity to compete for military and non-military procurement contracts, the Philadelphia Regional Office of the U. S. Department of Commerce and the Bristol Chamber of Commerce have developed a cooperative program to speed procurement information issued by the Department of Defense and the General Services Administration.

All 55 major army, navy, and air force purchasing offices in the field and in Washington, as well as the General Services Administration, will transmit daily to the Department of Commerce a synopsis of each invitation-to-bid approved that day. The synopsis will include a brief but adequate description of the item to be procured, quantity to be purchased, the invitation number, and place and date of bid opening or issuance.

The Department of Commerce will consolidate and reproduce the synopses and mail the data daily to the Bristol Chamber of Commerce.

The synopses will be available at the office of the Bristol Chamber of Commerce for pick up. Experience has shown that a pick up once or twice a week will be sufficient to keep interested businessmen fully acquainted with the current procurements. All businessmen in this area who produce products which they wish to sell to the Government are urged to take advantage of this new service.

## WHERE REDS ATTACKED SOUTH KOREA

SUPPORTED by tanks, troops from Communist-dominated North Korea launched a series of attacks across the border into South Korea as indicated (arrow) on the above map. Reports from the Seoul government said that Kaesong, 45 miles northwest of the capital, had fallen to the invaders. Enemy forces also cut off the coastal highway by making an amphibious attack from the sea (arrow) in 20 small craft. (International)

## WORLD NEWS IN BRIEF

Four of the nation's major railroads have been crippled by a walk-out of some 4,000 switchmen. A fifth rail line—The Great Northern—has been able to maintain only partial service.

The strike was called by the AFL Switchmen's Union to enforce demands for a 40-hour week at the same wage scale that now is paid for a 48-hour week.

Union officials claimed that the walkout is virtually 100 per cent effective. The stricken railroads are the Chicago, Rock Island, and Pacific, the Chicago Great Western, the Western Pacific, and the Denver and Rio Grande Western.

Both union and management spokesmen said they have not scheduled any mediation sessions. A union official said his group is adopting what he called a wait and see attitude regarding the dispute.

Frank Erickson, the kingpin of the nation's bookmakers, goes before New York Special Sessions Court today to face sentencing on 60 counts of gambling and conspiracy to which he has pleaded guilty. The 54-year-old one-time bus boy, who has never spent a day in jail, could receive a maximum 60-year

term and be fined as much as \$30,000.

District Attorney Frank S. Hogan announced earlier that he would ask for what he called the stiffest sort of jail sentence for Erickson. Hogan is expected to ask for at least a three-year term.

Court circles pointed out that a defendant who pleads guilty, saving the state the expense of a long trial, is usually treated with leniency.

### Truman Brands Invasion, "Lawless Action"

Washington—President Truman today branded the invasion of South Korea as a "lawless action" and a serious threat to world peace. The first presidential statement on the Korean crisis was issued by the White House shortly before noon.

Mr. Truman said: "Those responsible for this act of aggression must realize how seriously the government of the United States views such threats to the peace of the world."

"Wilful disregard of the obligation to keep the peace cannot be tolerated by nations that support the United Nations charter."

"Our concern over the lawless action taken by the forces from North Korea, and our sympathy and support for the people of Korea in this situation, are being demonstrated by the cooperative action of American personnel in Korea, as well as by steps taken to expedite and augment assistance of the type being furnished under the mutual defense assistance program."

### City of Uijongbu Falls to Communists

Seoul—The city of Uijongbu, a key South Korean defense point 17 miles northeast of Seoul, fell to invading Communist North Korean forces tonight at 8 p. m. (3 a. m. Pacific Standard Time). Thirty thousand South Korean defending troops retreated two miles south from Uijongbu. The Soviet-trained North Koreans, equipped with tank reinforcements, laid down an intensive artillery barrage behind the South Korean forces.

### Vatican Sources Report Raids on Monasteries, Convents

BUILDING IS RUSHED

CROYDON, June 26—While men rapidly drove nails and welded paint-brushes to bring the new house of Mr. and Mrs. Raymond Clark to completion on Wyoming avenue during the week-end, a committee of women appointed at a special meeting yesterday inaugurated a house-to-house solicitation for funds. The money is to be used to pay for necessities with which those burned out on Wednesday evening might be rehabilitated.

The special meeting, called in Croydon Fire Co. station, included as its main portion of business the appointment of team captains and aides, who by 3.30 were on all streets in the area protected by the fire company, asking for money for the project. The drive is to continue this evening. Advance reports show that the solicitation is highly successful.

Meanwhile the hammers were pounding away at the site on Wyoming avenue, and brushes were dipping into the paint. By this morning the window frames had been painted as well as the inside trim; more sheetrock was added, flooring laid over the sub-flooring and this in turn was sanded; plumbing fixtures were installed;

## ONE MAN'S OPINION

By Walter Kiernan  
(Distributed by International  
News Service)

Say what you will about congress . . . It's not many legislative bodies that could figure out a way to get back a cut in taxes before the cut has been made.

They did it by "plugging several loopholes" in the tax structure . . . "plugging a loophole" means "hit him again boys, he's still breathing."

But the government must need money very badly. Mr. Truman says we can't afford to pay for a 70-group air force and this is the first time in years that the idea of not being able to pay for something has come up in Washington.

The usual system is . . . make the appropriation, turn the winger, make the next appropriation, turn the winger, etc.

You might think that the three-point landing for this forward country would come ahead of the four-point program for backward countries but it doesn't appear that way sideways.

All I know is the air power people's rebuttal to "we can't afford to pay for a larger air force." They say—"we can't afford not to."

### ALIENS ON U. S. PAYROLL

The State Department has given respectful attention to the report written by Senators Green and Lodge after their trip abroad to study the problem of alien employees in United States embassies, legations, and consulates. Their chief recommendation—that these foreigners be replaced by Americans as rapidly as possible—runs counter to precedent. But officials of the department have said they will consider it carefully.

That is a sensible attitude to take, of course, toward a report that appears to have a solid foundation even though the two authors confined their inquiries to four cities — Frankfurt, Paris, New York, and Washington. The senators said that there was "unanimous agreement" among all the witnesses questioned that employing aliens in U. S. foreign service organizations abroad represents a definite security risk. They also cited evidence to prove it. In Germany, for example, 50 persons out of a total of 2,000 have been dismissed for security reasons since Dec. 31, 1949.

The two senators made other points. They noted that the low salaries paid aliens make them "a prey to bribery and to pressure." They spoke of the difficulty of investigating the background of applicants for jobs and of the fact that usually there are not enough security officers to keep them under surveillance when hired. They conceded that all but about 15 or 20 per cent of these foreign employees, outside of Germany and Austria, are engaged in menial work. But they declared that in many cases aliens have access to confidential and secret information.

It might be contended that this practice has been going on a long time, that it evidently has been generally satisfactory, that there has been little to show that it has impaired the safety of this nation. Besides, there is something to be gained by employing aliens if U. S. embassies are to be of any value as listening posts. Perhaps a compromise solution would be better than the drastic one proposed.

## ECHOES OF THE PAST

(By Courier Staff Member)

Review of the news as it appeared in the Bucks County Gazette issue dated at Bristol Feb. 6, 1902. The Gazette, a weekly newspaper published at Bristol, was discontinued following its merger with the Courier.

The residence of Winder L. Johnson, on his farm in Halmesville township, was consumed by fire yesterday afternoon. The fire was discovered about 3:30 o'clock by Misses Nellie Everitt and Lizzie Mathews while they were returning home from school at Halmesville, and who gave the alarm to the residents of Newportville and vicinity. The chemical engine from Halmesville was taken to the scene, but owing to the extremely cold weather and the condition of the roads, arrived too late to be of much use. The fire was caused by the explosion of an oil stove. The loss is about \$2,500. Mr. Johnson and family will reside in Bristol until a new house is erected.

Langhorne was the mecca for Grand Army men from almost all over the lower end of Bucks County on Tuesday evening upon the occasion of the regular quarterly reunion of the members of R. L. Bodine Post, No. 306, G. A. R., of Doylestown; H. Clay Beatty Post, No. 73, Bristol; T. H. Wynkoop Post, No. 427, of Newtown; and Hugh A. Martindell Post, No. 366, of Langhorne.

The ice plant, which has been shut down during the winter, will resume operations this week.

William Winterwerb and family have moved from Garden street to one of the new houses corner of Pond street and Jefferson avenue. Harry Brooks and family have also taken one of the new dwellings and have moved there from Washington street.

The work on the new railroad car scales which the Consolidated Iron and Steel Company is having put in at its works on Canal street, is almost completed. The installation of this new pair of scales will greatly facilitate the work of loading cars. Heretofore all the iron has been weighed on small scales, while now the cars can be loaded and the iron weighed in bulk afterwards.

At a special meeting of Council held on Tuesday evening, the ordinance giving the Pennsylvania Railroad Company the right to elevate its tracks through the third and fourth wards of Bristol was passed without a dissenting vote. The ordinance was considered at a special committee meeting on last Friday evening when one or two minor amendments were made. A change was then made authorizing the vacation of part of Washington street, instead of Beaver Dam road.

The committee unanimously recommended the ordinance as amended. On Tuesday evening all of the members of Council were present excepting Messrs. Butler and Gorton of the third ward, both of whom were ill. Upon motion of Mr. Wright the ordinance was put upon final passage. It was read by the clerk and adopted by sections. Then upon motion it was adopted as a whole, and ordered to be advertised in the two local papers.

The 26th annual meeting of the Bristol Cemetery Company was held at the office of the secretary on Monday evening. The following officers were re-elected: President, George A. Shoemaker; treasurer, Philip Hartzell; secretary, Dr. H. Pursell. The following including the above officers were chosen as members of the board of directors: William Blackwood, A. J. Hibbs, Lawrence Johnson and Joseph R. Grundy. Ninety-two interments were made during the year and 41 lots were sold.

County Commissioner Michael J. Callahan died at his home on Buckley street, Saturday evening. The deceased was born in Bristol on December 1, 1869, and was a man who had many friends. For a number of years he was engaged in the coal business. In 1899 he was elected a member of the board of county commissioners on the Democratic ticket.

## ST. ANN'S RALLIES BUT LOSES GAME TO THE WARRIORS

TRENTON, N. J., June 26 — St. Ann's A. rallied in the closing innings yesterday on Hetzel field, but again were victims of the Trenton Warriors who beat the "Saints," 9-7, in a Trenton Industrial League contest.

The Warriors held an 8-0 lead until St. Ann's scored four runlets in the sixth and three more in the eighth but the early lead of the Warriors was too much to overcome.

Andy Barber, who was the winning hurler against the Bristol team on Friday evening was again the victor although he received help from "Johnny" Pinkney.

Manager "Spike" Scordia used Art Green, Paul Cervellero, Joe Sagolla and Art Brock on the mound.

St. Ann's meets Michalski this evening on Memorial Park field. Either Dave Muth or Paul Leighton will twirl for the Wood streets with Frank Barbeta behind the plate.

## Hospital Drive Goes \$5,000 Beyond The Goal

DOYLESTOWN, June 26 — More than \$5000 beyond the original goal is the record in the drive for funds for the Doylestown Emergency Hospital. The workers went "over the top," garnering \$105,114.33, the main street thermometer on which record of the drive is kept being marked accordingly.

On the 13th of April the drive was launched for the \$100,000 to pay for the new two-story addition to Emergency Hospital. On Saturday Co-chairmen, Charles E. Radcliff and John F. Mason climbed a huge workman's ladder to the top of the huge wooden thermometer at the corner of Coast and Main streets, and took turns splashing red paint above the top marking.

Members of the hospital and fund committees were present, among them Mrs. James M. Shellenberger, chairman of the hospital committee; Mrs. William Greenwalt, newly elected president of the V.I.A.; Mrs. Fred Martin, president when the drive was launched; Mrs. C. A. Sienkiewicz, Doylestown drive chairman; Mrs. George Sommers, chairman for outlying areas, and Frank T. Reynolds, publicity chairman.

"The money, donated by those from all walks of life, is still coming in without solicitation," Mr. Radcliff and Mr. Mason said. Approximately 400 persons have not been called on, they added, due to lack of solicitors in certain sections, and may be responsible for a still greater sum.

Of the 4551 contributors in the whole area, Doylestonians were responsible for over \$40,000. The largest single amount donated was for \$3000 and 23 persons gave \$1000 or more.

## Fine "Short-Weighters" After Edison Hearing

EDISON, June 26—Robert Sanko, Tamaqua, and Theodore Sanko, Hazleton, trading as Sanko Brothers, charged with violation of the solid fuel act, which consisted of short-weight coal deliveries to customers in this section, were fined \$100 and the costs of prosecution, amounting to \$35, by Justice of the Peace William Wrigley, Edison, Thursday.

James R. Redcliff, of the Bureau of Weights and Measures, and Arthur C. Shaw, representing the county, served as the prosecutors for the Commonwealth of Pennsylvania.

The defendants, who could have been arrested and fined \$600, were placed under arrest by Constable William Klotz, of Tamaqua. They were given a warning by the Edison J. of P.

The defendants would change the weight-slips on the loads of coal which they received at the mines, short-weighting their customers from 1000 to 2000 pounds, it is stated.

The names of the victims, were not divulged because they aided in furnishing the evidence.

## South Korea's Army Unleashes Counter-Attacks

Continued from Page One  
battle material. The remainder will be fully equipped when U. S. arms and munitions reach Seoul's port of Inchon.

(In Tokyo Gen. Douglas MacArthur announced that arms and ammunition, now being loaded for shipment to invaded South Korea, will be escorted by U. S. Navy warships and Air Force planes "to insure safe delivery.")

The South Korean communiqué reported that two sea thrusts by the Communists were turned back with heavy loss of life. A 600-ton Russian-type ship was sunk with 600 North Korean troops aboard which lies 165 miles south of Seoul.

The Communists were apparently intent upon landing south of Seoul and placing the South Korean capital in the jaws of a pincers movement from the north and south.

The other amphibious thrust was staged by the Communists below Chumujim where a guerrilla column of 1,000 men was landed and pushed forward toward the Chiri mountains south of Seoul. The South Korean army said 250 of the guerrillas were killed. It was expected that the rest would be wiped out before reaching the Chiri area.

In counter-attacking on the Ongjin peninsula sector 80 miles north-west of Seoul, South Korean units penetrated five miles into the northern territory across the 38th parallel border and captured the manufacturing city of Haeju. In this

thrust, the southern army also recaptured the city of Ongjin, one of the points quickly overrun Sunday by the Communists.

Kaesong, important highway and rail junction just below the border remained in Communist hands. The Communists also held the districts of Yunan, Paekchong and Pochon, 20 to 30 miles north of Seoul. The railway city of Chunchon, 10 miles south of the border and 50 miles northeast of Seoul, also fell to the Reds.

Closer to the southern capital, the defending forces gained ground in counterattacking in the Uijongbu area, 12 air miles northeast of Seoul, and Communist forces were reported retreating to the north. A dozen or more of North Korea's 90 tanks were reported thrown into the battle in this area.

The deputy staff chief, Gen. Chai, reported seeing a Russian crewman driving a North Korean tank five miles north of Uijongbu.

Another Seoul officer said he received reports that Russian crewmen were found in 10 captured North Korean tanks. Information Director Clarence Ryee said later, however, that no Russian soldiers had been captured.

The northerners failed to throw any great numbers of airplanes into the attack. A lone Russian-type Yak fighter made a brief sortie over Seoul this afternoon, dropping two bombs on the Yongsan police station. Three civilians were injured. This was the second aerial thrust against Seoul from the north. Sunday five Russian-type fighters strafed the Kimpo airdrome, killing one civilian employe and damaging parked planes including an American C-54.

The South Korea communiqué reported that 1,580 North Koreans have been killed and seven captured in two days of fighting. South Korean casualties were reported as only 19 killed and 113 wounded.

Fifty-eight armed vehicles from the north including ten tanks were reported destroyed.

The situation for South Korea was reported generally improved and the invaded area was apparently recovering from the first shock of the Communist surprise attack, which turned the "cold" war into a shooting war in this part of the world.

## Fund Solicitation Starts for Clarks

concrete steps placed at front and back; and sizing coat put on the interior walls.

An electric refrigerator was donated by Charles Richman, of Bristol.

It is stated that although the house will be practically completed by tomorrow evening, the Clarks and their seven children may be delayed in moving in for a few days due to awaiting delivery of certain goods. Linoleum, wall finish material for the kitchen and bathroom, also some other items are yet to be delivered, some coming from Pottstown. A cook stove is yet required—either oil or electric—as no gas pipes are in that section of Wyoming avenue. A goodly lot of furniture has been donated, and is

to be collected when the house is ready for occupancy. Women of the neighborhood are anxious to add some of the "homey" touches before the Clarks move in, and there are rumors of a celebration when all is in readiness.

Fifty were at the session held yesterday, with William Moran presiding. Progress was reviewed, then the area mapped for solicitation. Team captains are: Mrs. Shifertine, Mrs. Davis, Mrs. Gordon Roberts, Sr., Mrs. Gordon Roberts, Jr., Mrs. Sorenson, Mrs. McCall, Mrs. Polk, Mrs. Weisinger, Mrs. Schofield, Mrs. Beears, Mrs. William Moran, Mrs. Lane, and committee of V.F.W. members (Schumacher Post), lead by John O'Brien.

Bucks Co. Rescue Squad amplifier informed residents of the area that the drive was about to begin and plea was in this way made for funds.

It is announced by those in charge that donations of used or new screens, washing machine and kitchen stove will be appreciated.

"Rio Rita," the great Ziegfeld  
musical comedy smash, will be re-  
viewed by St. John Terrell's Music  
Circus, here, June 27 through July  
2nd, with Annamary Dickey, one of  
the nation's top singers, in the title  
role.

Playing opposite her will be  
David Atkinson, a Terrell discovery,  
brought from Canada for this ap-  
pearance. On the strength of his  
successful audition for the Music  
Circus, Atkinson has won the lead  
role in "The Desert Song" at the  
St. Louis Municipal Opera.

Robert Foyle, young basso pro-  
fundo who made a sensational hit  
in "Rio Rita" with the Music Cir-  
cus, Miami Beach, Fla., last winter,  
will be in the all-star Lambertville  
cast. The show will also feature  
another Music Circus favorite, John  
Shanks, who scored in Miami Beach  
and has been seen, with Foyle, in  
this summer's season on Terrell's  
mountain-top site above the Dela-  
ware River.

The colorful setting of the Rio  
Grande will be given the unusual  
stylized Music Circus decor treat-  
ment for the production which in-  
cludes such music as "Rio Rita,"  
"Tangara Chorus," "Moonlight Bal-  
let," "Spanish Shawl," and "The  
Kinkajou."

Annamary Dickey has been voted  
one of the ten most beautiful wom-  
en in the entertainment field. Her  
concert career includes appear-  
ances with the New York Philhar-  
monic in Carnegie Hall, Lewisohn  
Stadium; Robin Hood Dell, Phila-  
delphia, and recitals in most metro-  
politan cities of the nation. On  
Broadway she has starred in  
"Hollywood Pinafore" and "Al-  
legro," and has had long engage-  
ments for three seasons in the Wal-  
dorf Astoria's Wedgewood Room.

## Miss Helen B. Scott Is Wed to Burlington Man

A June wedding with double ring ceremony united Miss Helen Bernice Scott, of this borough, and Mr. Wendell Raymond, of Burlington, N. J., on Saturday afternoon at four o'clock. The scene of the nuptials was the rectory of St. Mark's R. C. Church, with Mr. Sydney E. Scott, 349 Barry Place, giving his daughter in marriage. Mr. Raymond is the son of Mr. and Mrs. Norvel Raymond, of Burlington. The officiating priest was the Rev. Albert Glass.

Two vocal numbers by Miss Margaret Fallon were accompanied by Miss Katherine Keating, pianist. These were "I Love You Truly," and "The Rosary."

An ankle-length, white marquisette gown over satin was the choice of the bride, this having insets of lace over the hips. The cummerbund was of satin. The gown had cape sleeves, and the plunging neckline buttoned to the waist. Her satin crown had trim of French lace, this holding a veil trimmed in French lace. Wrist-length mitts were of French lace. The bridal bouquet was of Easter lilies, with an orchid at the center.

A sister of the bride, Miss Kathryn Scott, served as an attendant. Her ankle-length gown of full, white nylon was trimmed with four insets of yellow frosted lace. This had cape sleeves and Chinese open-type neckline. The gown had yellow taffeta underskirt. Her heart-shaped hat was of yellow net with yellow streamers. She wore yellow, wrist-length mitts and carried spring blossoms.

Best man was Mr. Leon Zelewski, of Roebing, N. J.

Mrs. Raymond, mother of the bridegroom, was attired in a navy blue dress, white accessories and white rose corsage.

The Scott residence was the scene of the reception for 100 guests.

For a short honeymoon trip to the Pocono Mountains, Mrs. Raymond wore a navy blue suit, white accessories, and the orchid from her bridal bouquet.

The newlyweds will make their home with the bride's father. Mr. Raymond, who served in the U. S. Navy for 2½ years, is employed by a Burlington construction firm.

Compare Nash with other used cars and see the difference! A used Nash looks new years longer, because body and fenders are fully Bonderized under brilliant, lasting Permalux enamel finish.

### How About The Ride?

Most Nash used cars have individual coil springs on all four wheels for the smoothest ride you ever experienced. And all have more room for long-legged passengers and all their luggage.

### How About Year-Round Comfort?

Only Nash has the famous Weather Eye Conditioned Air System—the greatest contribution to automotive heating and ventilating in the history of the industry. With the Nash Weather Eye, you can ride in shirt-sleeved comfort on the coldest day.

### How About Quiet?

If you hate squeaks and rattles, choose a used Nash. It's lastingly quiet because it's built with Unitized, all-welded Airflyte Construction eliminating more than 8,000 noise-making joints.

### How About Value?

Our Nash used cars which carry the Select Used Car label have had as many as 21 rigid inspections, adjustments or replacements and are thoroughly recommended to bring the buyer better performance, appearance and dependability.

ASK FRANCIS BURKE OF LOWVILLE, N. Y.

SAYS MR. BURKE: "I have a 1947 Nash Ambassador that I use as a taxi. I bought the car used. At the time I bought it, it had 20,000 miles on it. I now have 92,000 miles on it . . . still get 20 miles to the gallon. It looks as good today as it did when I bought it and has never quit the road."
